No. 63/4

February 1963

TO: ALL ROOTES GROUP DEALERS

SUBJECT: TYPE "D" OVERDRIVE HYDRAULIC KNOCK

MODEL: SUNBEAM SERIES, ALPINE & RAPIER

Further to Bulletin 202 Dated Sept. 26, 1960, a modification has been introduced in production to eliminate hydraulic knock. This consists of the inclusion of a bleed hole in the operating valve body and enlarging the diameter of the operating valve stem exhaust port.

Overdrive units with serial numbers 25/3082, 25/3083 and subsequent numbers have been modified as described above.

NOTE:

Units with these serial numbers must not be modified as suggested in Bulletin E.2.

Modified overdrive units are fitted in production from the following chassis numbers:-

Sunbeam Rapier IIIA	-	D.3054578
Sunbeam Alpine	-	E.9108239

Please bring the foregoing to the attention of all concerned.
