

TO: ALL ROOTES GROUP DEALERS
 MODEL: ALL MODELS
 SUBJECT: FAN BELTS

On a number of cars, transient owners have been unable to obtain fan belts from our dealers due to lack of stock and consequently, been held up for a period while a fan belt has been obtained.

This has affected the Humber chiefly and for dealer information, the following fan belts can be fitted to our products in the event of non-stocking.

It must be pointed out that the retail cost of these belts are higher than the standard Rootes belt and as such, these belts should only be used in an emergency:-
