TO: ALL ROOTES DEALERS
MODEL: IMP & CHAMOIS
SUBJECT: TRANSAXLE UNITS

To assist in overcoming the complaint of jumping out of gear, both selector forks are now being produced in EN.32 B steel with cyanide hardened pads.

The new part numbers are as follows:-

Assembly Selector 1st & 2nd - 7104285 replaces 7104055

Assembly Selector 3rd & 4th - 7104286 " 7104059

These assemblies can be identified by a change in the forged number on the fork. 7010119 replaces 7010024.

The new selector assemblies have been introduced into Production at the following chassis numbers:-

Imp Deluxe - B.419087849

Imp Basic - B.429003383

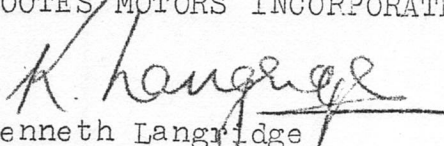

Chamois - B.431006069

These numbers are approximate only and confirmation that the new components are fitted should be made by reference to the transaxle unit number, stamped on the gearbox adjacent to the inspection cover. New components are fitted from transaxle unit No. 120250.
