STEERING
FRONT SUSPENSION

No.

62/4

October 1962

TO: ALL ROOTES GROUP DEALERS

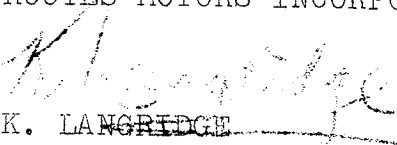

SUBJECT : FRONT HUB END FLOAT

MODEL : ALL MODELS

A rationalised front hub end float of .002"/
.007" (.05 mm/ .18 mm) is now specified for all
models.

This new figure can be used for all models
from Series I onwards and applies to both disc
brakes and drum brakes on vehicles.
