TO ALL ROOTES GROUP DEALERS

NISONGER / SMITH PARTS

FOR IMMEDIATE ATTENTION

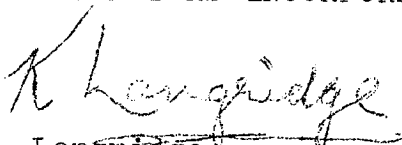

It has been brought to our attention that a considerable number of complaints have been received regarding poor stock and high prices on EASI-DRIVE components of Smiths manufacture equipped to the HILLMAN Stages I & II.

These complaints are due chiefly to the fact that faulty components are not being returned to Nisonger for repairs, It is impressed on all Rootes Group Dealers to make a stock parts check for any intermediate solenoids, control units or rotors that are faulty or in-operative and return them to Nisonger for repair.

The recent Service Bulletin affecting Warranty of items of both Lucas and Smiths manufacture should assist Dealers in a quick turn around of Warranty claims and it must be pointed out that if a unit is suspected faulty during the normal warranty period on no account should this unit be interfered with in any way but returned directly to the vendor's office with its appropriate warranty tag. Interference with the units can automatically void the vendor's warranty.

The high price of components in most cases is due to the charging out of units at full retail price instead of the exchange prices. Attached is a price list of all Smiths Easi-drive components, These are most competitive and we feel sure that if the foregoing suggestions are strictly adhered to complaints of poor supply and high prices will soon be rectified.

ROOTES MOTORS INCORPORATED

  
K. Langridge  
General Service Manager
