ELECTRICAL
SYSTEM

No. N-6

March, 1965

TO: ALL ROOTES DEALERS

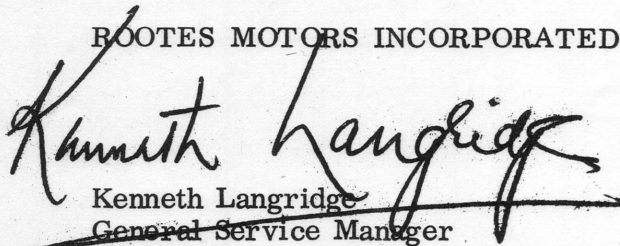

MODEL: SUNBEAM DeLUX, MINX V, ALPINE IV, TIGER,
HILLMAN SUPER MINX III, HUMBER SUPER SNIPE V,
IMPERIAL

SUBJECT: WATER TEMPERATURE GAUGE TRANSMITTER
Part No. 1205552

Recent complaints of temperature gauges being inoperative or reading incorrectly have been traced to the transmitter. The trouble has been corrected in Production but the number of suspect transmitters is not sufficient to warrant the cleansing of stock.

Where it is absolutely essential to guard against a repeat failure, then a unit date stamped September 1964, (0964) or after i.e. 1064, should be fitted.
